### Note from Internet Publisher: Donald L. Potter

October 26, 2011

I would like to thank Mrs. Elizabeth Brown for writing these little decodable stories to go with Hazel Loring's 1980 *Reading Made Easy with Blend Phonics for First Grade*. Mrs. Brown sent me the stories back in February of 2010 to use with my *Blend Phonics* students. I added the questions and spelling words on December 19, 2011.

The stories add spice and interest to the task of learning to read with phonics-first. Since it is crucial for student to learn to decode BEFORE reading from connected text in order to avoid development of the whole-word reading reflex, Mrs. Brown has wisely included the phonics lessons just BEFORE the stories. This makes the program is completely self-contained in this document.

I noticed that there were no long vowels in open syllable spelling patterns in the original *Blend Phonics*, so I added Unit 46. It is interesting that many beginning phonics programs do not teach this pattern. I believe this will strengthen this already good program. Unit 47 was added in the interest of assuring that all 220 Dolch List words are included in the program.

I recommend discussing the stories with the students to help them develop their ability to recall and understand what they read. I have added four sample comprehension questions at the end of each story to encourage the development of attention. Notice that the stories are **perfectly decodable** rather than predictable. Our goal is to eliminate guessing, not encourage it.

For valuable information on teaching reading with phonics visit [www.blendphonics.org](http://www.blendphonics.org)

Hazel Loring's original *Reading Made Easy with Blend Phonics for First Grade* is available on Amazon and Barnes & Noble. I have also published *Blend Phonics Stories and Lessons* in a 6 x 9 paperback. *Beyond Blend Phonics: English Morphology Made Easy* teaches the Anglo-Saxon, Romance (Latin & French) Levels of English, Greek Combining Forms, and Homonyms.

My *Blend Phonics Timed Fluency Drills* is a special supplemented designed to help students who need to increase their word identification fluency. While all students can benefit from the techniques in this book, it is specially designed for students with serious issues with dyslexia.

A special thanks goes to my many tutoring students, who helped me detect errors and make various and sundry improvements on the program.

The *Phonovisual Sound Pictures* are in parenthesis. The two *Phonovisual Charts* (Consonants & Vowels) form a universal method for teaching the sound-symbol associations of written English. In instant use since 1942, they are a time-tested method for teaching the phonemic awareness and phonics side of reading. They can be used successfully with any phonics, whole-word reading series, whole language or Guided Reading program. The Charts are reviewed daily at the beginning of each Blend Phonics tutoring session. I also use the *Phonovisual Flashcards*.

Blend Phonics is a systematic, sequential, universal, multi-sensory phonics-decoding program that teaches automatic decoding linked with meaning. Coupling the scientifically organized *Phonovisual Charts* and the *Blend Phonics* directional guidance technique forms a powerful combination that is easy to teach and leads to success for all students.

Sample Phonovisual Charts

Explanation of Scientific Organization of Charts

**Consonant Chart:** The top of the chart starts at the front of the mouth and goes to the back going down the column. The first column (p, wh, f, th, t, s, sh, ch, k, h) are unvoiced consonants (Quiet Cousins). The second column (b, w, v, th, d, z, j, g) represents voiced consonants (Noisy Cousins). The third column (m, n, ng) are nasals (Singing Cousins). The column on the right (qu, l, r, y, x) relates to the consonants to the left according to points of articulation (Neighbors).

**Vowel Chart:** Top row are long vowels spellings. Second row are short vowel spellings. The vowels below the short vowel row are called "other vowels." The small print represents secondary spellings.

Color Coded Large Wall Charts, Small Student Charts, and Flashcards can be ordered from [www.phonovisual.org](http://www.phonovisual.org). They are a useful aid to teaching the sound-to-symbol correspondences.
